Aldermen Furman, Gannon and Kelly made similar announcements.

On reassembling the committee returned, and through Alderman Gannon its chairman, presented the annual message of Hon. Isaac W. Tausig, Mayor.

The message was read, and on motion of Alderman Gannon ordered filed.

The following resolution in relation thereto was offered by Alderman Kelly and adopted:

Resolved, That the message from the Mayor be received, printed in the minutes and one thousand copies printed in pamphlet form under the direction of the Committee on Printing, Stationery and Supplies when appointed.

Said message being as follows:

JERSEY CITY, May 2, 1882.

To the Honorable the Board of Aldermen:

Gentlemen, In again accepting the trust confided in me by my fellow citizens I am conscious of the responsibility assumed, and in accordance with custom I herewith hand you my annual message.

At the outset permit me to congratulate you on the present prosperous condition of the city's affairs.

Our finances were never on a more substantial footing than now, taxes and assessments have been collected better than heretofore, claims have been promptly met, a large number of houses and factories have been built thereby increasing the property valuation; and our credit has improved.

In the fiscal year the receipts as per Comptroller's statement, dated February 1st were: From taxes and assessments, \$1,903,603.52. The tax levy or the amounts appropriated for State, county and city purposes was \$309,569.56, leaving the handsome surplus of \$1,594,033.96, thus showing that we have collected \$109,033.96 more than was required to meet the expenses of government. If this policy is continued of living within our income nothing can disturb our ability to meet our obligations and retain the confidence of our creditors.

RIVER FRONT.

The shore front of Jersey City would be of great pecuniary value to the city, and would largely increase its revenues if the laws relating to it were the same as those applicable to the city of New York.

That city derives a large revenue from this source; we derive none. Not only is there no income, but an attempt has been made by the corporations owning the shore front to secure the passage of laws which would close every street leading to the river. I congratulate our citizens, that their efforts to prevent this legislation have been successful. I advise however thorough organization prior to the meeting of every legislature, so that large and respectable committees may be formed to watch and protect the city's interests at Trenton: it is the duty of our taxpayers to assist the city officials.

Unless we are vigilant and arouse public sentiment and enlist the press our rights may be quietly taken from us before we are prepared to resist.

I advise concentrated and intelligent action on the part of all our city boards to protect the rights of the city in this matter.

The Delaware, Lackawanna and Western Railroad Company, a foreign corporation, has obtained from the Chancellor of the State an injunction, the effect of which was to enable that company to lay its tracks across certain streets in the upper part of the city without the consent of the Board of Aldermen, and against the protests of our citizens. An effort was made by the Law Department of the city to obtain a hearing before this company was permitted to delay its rails, but the Chancellor refused to permit this hearing on the part of the city.

The only course now open to the city is to defend the suit.

The papers are being prepared and the proper action taken to enable the city to be heard. I am confident that when the case shall reach the Court of Errors and Appeals (if not before) that the rights of the city to control and regulate its own streets against the demands of corporations will be affirmed.

The Delaware, Lackawanna and Western Railroad have also commenced a suit against the city for damages for \$5,000, for injuries which it alleges it has received by tearing up its track and interfering with its business.

This action will be resisted by the city, and I confidently believe that no court will award this company any damages, but on the contrary, will declare that its appropriation of our street is illegal.

This same company has also served me with notice as Mayor, through their counsel, asking for protection under an act to prevent "routs, riots and tumultuous assemblages," and stating that they would hold the city liable if not so protected.

I shall advise with the law officers of the city and do whatever the law directs me to do in the premises. As to the legal questions involved in these controversies I leave their settlement to the law department.

RAILROAD TAXATION.

I have in the previous messages called the attention of our citizens to the unfairness of the tax laws of the State as they affect Jersey City and have suggested remedies which I thought would give us relief.

The Legislature at its last session refused to give us a constitutional convention and failed to pass any law giving us relief on this subject. An attempt was made to have the State pay Jersey City a portion of the State tax collected from railroads, so as to give us some revenue for city purposes from these roads, which our State, by its contracts, has exempted from local taxation.

An attempt was also made to secure the passage of a law taxing the future acquired property of these exempt corporations, but all efforts for relief failed.

I trust that the next Legislature, under the pressure or an aroused public sentiment, will do us justice, or at least will give us some measure of relief.

It is unfair for the State to hold us liable for the protection of its exempt property, and at the same time refuse to permit us to collect a dollar of city revenue from it. It is unjust that the burden of protecting this exempt property should be thrown upon the individuals and corporations who do fairly and honestly pay taxes on their property.

This State policy is so unjust that I feel assured that persistent action on our part and a thorough knowledge of the facts will finally induce the representatives from other parts of our State to unite with our people in securing justice to us.

The efforts for relief through the Legislature having failed, the Board of Aldermen has taken action to secure the appointment of a committee partly composed of city officials and citizens to present the matter to the corporations themselves, and appeal to them to take some voluntary action on their part which will secure us some measure of relief by these corporations, according to a reasonable measure of taxation. This committee has now been appointed. I trust that their efforts will be successful.

It seems to me that these corporations would act in their own interest by uniting with our citizens in this matter, unless they desire to live in active and continual hostility with our people.

The feeling against these corporations is not because they are corporations, but because our people feel that they are using their power to oppress us. I am satisfied that every effort on their part to meet us in a spirit of fairness and compromise will be met halfway by our people. The proper policy in my judgment for the people to adopt is to encourage the establishment and development of every commercial and manufacturing interest in our city, whether they be conducted by corporate or individual enterprise.

I think this policy is to give the largest facilities to every industry that employs labor.

If we encourage them by wise and fair treatment, we will increase our population, give employment to our citizens and induce new industries and additional capital to seek our city for permanent investment.

By giving them equal facilities, with those offered and given by other cities in other states we will enable New Jersey corporations and citizens to compete, on equal terms, with those of other States, where every city is granted to industries that employ labor. Such action

will increase the value of all the property owned by our citizens.

While doing this however we should continue the agitation in reference to taxation until every corporation shall pay its fair amount of municipal tax.

Let us urge upon them that it is their own best interest to yield to this just demand, and persistently present to every legislature our grievances until every corporation in this city shall pay its full amount of tax the same as other individual citizens. I recommend strict economy by the several departments in the purchase of supplies and the making of repairs, and as far as possible the same should be made under contract. Appointments to office should only be made after due inquiries have been instituted into the character and fitness of the aspirant. Promotions should be made from those already employed, so that an incentive be offered for employes to work for the city's interests.

I shall deem it my duty to carefully scrutinize any expenditure made as far as possible, and withhold my signature from anything I might deem extravagant or unnecessary.

Our citizens owe Governor Ludlow a debt of gratitude for the noble manner in which he has stood by the rights of our people. His veto of Senate bill 167 and the bill to absorb all the water rights of the State, the passage of which would have injuriously affected our income from water rents, and the value of our water bonds, have endeared him to our citizens without regard to party.

The Governor, of whom it was alleged that he was side-fitted with corporate interests, has proved himself the first Governor who has boldly and unflinchingly stood up against unjust demands of corporate power.

BOARD OF ALDERMEN.

During the past year this Board, by virtue of our city charter having but limited powers, has enacted ordinances some of which are very important, and were made with a view of establishing the rights of our city to certain streets to the river front. Some of the ordinances are good, especially those referring to the opening of Grand and Sussex streets as they have led to litigation and will be finally decided at some future time and clearly establish what rights our city has or has not to the city front.

The receipts from licenses have been in excess of former years and amounted to the sum of \$1306.99 (this includes all licenses), which reverts to the sinking fund of our city.

The duty of hereafter appointing members of the Board of Finance and Taxation has been delegated to the Mayor, thus relieving your Board from the responsibility of selecting them, and establishes the correct principle of holding the Mayor accountable for the financial government of our city in so far as it relates to the selection of good, capable and responsible men for that important position.

I desire to call your attention to the City Hall.

The building is entirely inadequate for the increased business of our city. The ventilation, sewerage and the light are poor as to cause complaints from all employees.

There is not sufficient room in the building for the several departments, papers and books of inestimable value are piled up in every vacant space obtainable, the loss or destruction of which would entail irreparable loss.

There are at present no offices for the Board of Finance and Taxation and Mayor, and suitable offices should be provided immediately.

I would suggest that the First District Court be removed out of the building and that room fitted up for the Board of Finance and Taxation, and the room now occupied by them be turned over to the Mayor for his use.

The furniture, desks and fixtures and the offices in general are in a dilapidated condition, and a disrepair to our city.

Our citizens who have business to attend to at the City Hall, have expressed their dissatisfaction at its condition. The several offices should be put in good condition and repaired immediately, the executive building should

be renovated, and the ventilation and sewerage improved. I also offer for your consideration the advisability of tearing down the building now known as the 1st Precinct Station House and Police Headquarters, and erecting on the property an addition to the City Hall, so as to enable every Board and department constituting our city government to have offices therein, and to erect a station house at some other location for the use of the police of the 1st precinct.

It would prove economical and of vast benefit to our city if every department would be provided with offices in one building.

Our citizens complain that—in order to pay taxes and water rents, or when having business at the City Hall and at the Board of Public Works, or other Boards—they are compelled to travel considerable distances.

The Sisters of Charity desire a building to be set apart for them to be used as a hospital for incurables, with no expense attached to the city for its maintenance.

We have several old fire houses not in use, one of which could be designated.

I desire also to call your attention to the parks of our city.

Instead of being a benefit to our citizens they are an eyesore and a source of annoyance and trouble to them. Several of the parks are closed at night, but some are not; the one most complained of is Hamilton Park.

The fences around these parks should be removed and a square stone enclosure no higher than say 12 or 15 inches erected instead.

This would give the police or citizens a clear view of the entire park and would soon have its good moral effect.

I also recommend that some means be devised and adopted to stop the practice among our city employees of selling or assigning in advance their claims against the city for services rendered or to be rendered. The enormous discounts which are charged greatly diminish the reward of their labors, bad habits are engendered, and very often their families are deprived of the necessities of life in order to gratify those habits.

At any rate this hawking and trading in claims against the city presents a disgusting spectacle, and measures should be adopted to prevent the filing of assignments of these claims in the City Clerk's office.

Immediate steps should be taken for the erection of at least one free salt water bathing house.

Our city like ours, lying on the banks of a grand river, should not be without one.

BOARD OF FINANCE AND TAXATION.

This Board has continued to merit the approval of our citizens and creditors, by adhering to the principle of providing sufficient money only for the economical government of our city.

The financial condition of our city, as per comptroller's report (condensed) 1882, is as follows:

Total bonded and floating debt less on ones and bonds held by the Commissioners of the sinking fund	\$16,198,951 00
Of which deduct the water debt which is self-sustaining	4,836,000 00
	\$11,362,951 00
Amount of past due taxes good	\$2,851,502 00
Amount of past due assessments good	\$3,568,41 00
	\$5,457,243 00
Leaving a balance of	\$5,910,703 00
Add amount to be expended during balance of year	125,163 00
	\$7,165,871 00
Actual debt	\$7,165,871 00

In this account no reference is made to other assets of the city which consist of public lands, buildings, engine houses, dock, school houses, parks, etc., which certainly are of immense value.

In my second annual message I recommended that sufficient money should be appropriated for the purpose of building one or two school houses, and sufficient money to repair

all streets on which wooden pavements are at present. I again call your attention to the same and trust that your Board will provide the money needed for that purpose.

Some arrangements should be made for the better preservation of the city's valuable books and papers, either by the building of a vault or by the purchases of large safes which could be placed in the cellars of our City Hall. While I recommend the continuance of making appropriations sufficient only for the carrying on of our city government, I request your attention to the fact that our financial condition warrants more liberal appropriations in some departments, viz.: For cleaning and repairing streets and sewers and for educational purposes.

I recommend that your Board, at the next session of the Legislature, endeavor to have a law enacted granting the right to cities of our class to issue non-taxable bonds, to be designated as sinking fund bonds, to bear not more than four per cent. interest per annum payable quarterly, to run not less than thirty years and to be issued by the Commissioners of the Sinking Fund. These bonds to be sold at not less than their par value, and that as fast as they can be sold the proceeds thereof to be used for the purpose of purchasing all of our seven per cent. bonds outstanding at market figures, after due advertisement inviting proposals to sell the same.

Our credit would be strengthened, and the four per cent bonds would probably bring a premium after the first or second purchase of seven per cent. bonds in the open market.

No doubt a large premium above par would have to be paid for the seven per cent., but by a calculation made the city would save an enormous amount of money in interest, even if seven per cents would cost us 720—or 20 above their par value. At the average date when falling due (the seven per cents.) the interest saved would amount to more than two millions of dollars.

I am positively assured that if such bonds could be issued and the course pursued as indicated no trouble would be experienced in placing the same and thereby decrease the sum annually required to pay the interest of our debt.

I would recommend that your Board make an appropriation for incidentals to the Mayor, the amount not to exceed two thousand dollars annually.

It has been often suggested to me to offer a reward for the detection of crime, or arrest of a criminal, but as there was no appropriation to draw from, my answer has been no funds. If the money is not used in any one year it reverts back to the city treasury for the benefit of the sinking fund.

In case anything extraordinary arises, this fund could be drawn against. I also advise that a water sinking fund be established, as recommended in my last message, the receipts of which to be at least five per cent. annually of the total receipts on water account, to be used solely for the purpose of paying water bonds as they may fall due.

BOARD OF EDUCATION.

No branch of our city government enjoys the popularity that the public school system does, and any interference with it is regarded with ill favor and condemned.

It is the paramount duty of every city to educate the children of her citizens and to instruct them in the duties they owe to their country and seek to mould them into good and useful citizens. We are in need of at least one or two new school houses to accommodate the growing population. Many children are deprived of schooling through the want of room in the public schools.

Some evening schools should be opened if appropriations can be secured for that purpose. During the past year charges and counter charges between teachers have been made in such numbers as to awaken the suspicion that the discipline must be very lax indeed to allow so large a number of complaints to have been under investigation.

It goes to show that either the teachers fail to obey, or that your Board or Superintendent

have not exercised the necessary good judgment in placing teachers in positions to which they were unqualified. Good temper and the requisite amount of good judgment are qualifications to look for in the appointment of a teacher.

While the pupils are trained in strict observance of order and discipline so should every teacher employed be required to obey the orders of the principal or superintendent.

No committee or member of the Board should be allowed to have any converse with the teachers. All orders should come through the principal or superintendent.

If charges are made against any teacher the same should be referred to a committee for investigation, who should make a written report to the Board. No examinations of charges should be made by the entire Board, and the committee should meet at the school house where the teacher or teachers against whom charges have been made are engaged, and there make such examinations as they deem proper.

The citing of teachers for examination or as witnesses to the Board room should be abolished.

Some improvement might be made in the requirement for the appointment of a teacher, by insisting on a longer period of probation as monitor, and so by a re-examination at the end of such probation, on the practical part of the aspirant's ability to teach, such examination to include inquiries as to their temper and good judgment. I recommend your Board that if possible and appropriate as can be secured, to replace all the heaters with steam heating apparatus as the heaters require constant attention and repair.

FIRE DEPARTMENT.

This important branch of the public service has during the past year merited the approval of our citizens.

It has been prompt and efficient, and performed the duties required intelligently and effectively. Two of the engines have been refitted and rebuilt at comparatively small expense, and are now nearly as good and effective as new.

Only a few two large fires occurred during the past year, one of which entailed a heavy loss.

In order to make the department still more efficient, I would suggest that at least one or two permanent men be added to each company, and the number of men at call, sometimes called buffaloes, reduced, in order to allow the appropriations to cover the additional expense.

No men at call should be appointed who work in day time outside of the city limits. Such men are of no use in case of fire, as they cannot be on hand.

I again recommend that fire alarm connections be made between all the school houses, churches and other buildings where people congregate and the department. I also call attention to the fact that no building law exists in Jersey City, and I recommend that your Board take some action looking towards the enactment of a law by the next Legislature, which will prevent the erection of unsafe and dangerous buildings, and also frame buildings where the same would endanger the surrounding property.

Strict economy in the purchase of supplies for the department and repairs to the apparatus should be observed.

POLICE DEPARTMENT.

This branch of the public service to which our citizens look for the protection of their property and persons, is in as well an organized and efficient state as the small number of men employed, and the large area of territory to be covered, will permit.

The total number of men employed is 148 (107 are patrolmen only) from which can be readily seen that the territory to be covered by each officer is too extensive, and that the forces are too small for effective service. The old Charity Hospital has been sold, and with the proceeds from the sale a new building and sufficient property has been acquired in a healthy location. With an expenditure of a few thousand dollars the grounds and building can be furnished and equipped so as to provide the neces-

sary accommodations for sick, poor or unfortunate people. I must again call your attention to the matter of light.

Up to the present time your Board has failed to make a contract with the People's Gas Light Company, and as that company has continued to light the streets, serious complications might arise from a failure to make the same. Immediate steps should be taken to make some favorable arrangement with the company.

While no one can deny that valuable services have been rendered by the department during the year, still it cannot be gainsaid that better service can only be expected if the system of appointing men would be improved upon, in so far that intelligent and capable men be selected, promoted for meritorious conduct and fitness only, and lastly if the tenure of office would be a fixity during good behaviour. Discipline and obedience to orders are essential elements in the discharge of the duties of a police officer. I recommend strict control and economy in the purchase of supplies for the department and hospital.

During the past year your Board allowed claims to accumulate, and as no control can be exercised on bills all owed to run for months before auditing same. I recommend that bills be ordered paid monthly.

BOARD OF PUBLIC WORKS.

This Board controls our streets and sewers and has charge of the water supply. Important improvements have been made during the year, a large number of sewers have been built, are in process of construction, or have been contracted for. The disposition on the part of this Board to grant all applications for sewerage is a good one, as our citizens are entitled to receive the benefits of sewerage, so essential to public health and prosperity. Few applications for paving streets have been granted but where public improvements have been made private enterprise has followed and the result has been of mutual benefit to the people and the city.

The new reservoir has been completed and put in operation; a larger and somewhat purer supply of water has been the result. The old reservoir has been emptied and thoroughly cleaned at once, in order to serve as a storage reservoir, so that a full supply of water may be secured to our citizens at all seasons of the year.

The question of getting a better and purer supply of water has agitated the public mind during the past year, and several propositions looking toward remedying the existing evil have been before the Legislature, but failed to receive the necessary attention. Your Board should investigate this matter thoroughly, and be prepared at the next session of the Legislature, to lay before it a body plan which will give our city a full supply of pure and wholesome water.

Our streets have not been as well taken care of, as to cleanliness, as they should have been. This no doubt is attributed to the recent appropriation for that purpose, but nevertheless, with the existing appropriation better results could have been obtained if younger men had been employed and a fair day's work exacted from them.

I again recommend to your Board that all streets paved with wooden pavement be repaved with Belgian blocks; also that your Board take some action looking towards the building of a grand continuous road or thoroughfare throughout the entire length of our city.

Good roads are necessary, and it is the duty of our city to furnish the same. At the water works at Belleville too many employees are placed, and the expenses therefore unnecessarily large. The purchase of supplies for Belleville were, during the past year, made without regard to stock on hand often without being required, and subjected to no competition.

Reform is necessary in this department; a thorough examination should be instituted, and in future all purchases of supplies be made by a full committee of the Board, or, after due advertisement, inviting proposals to furnish the same.

The collection of water rents has been good, but the decision of the Court declaring the levying of water rents on vacant property as invalid, has deprived the City Treasury of a considerable income.

The following statement has been furnished me by the Water Registrar: Total receipts from April 1st, 1881 to April 1st, 1882, \$449,062 83; total expenditures, including interest on bonded debt (\$323,570), \$487,261 93, showing a deficiency of \$18,201 10.

In previous years the receipts exceeded the amount of expenditure, leaving a handsome surplus annually. It is highly necessary that the expenditures be curtailed or more closely looked after in future.

Hydrants in so called old Jersey City are unfit for use in winter time and should be gradually replaced with new ones of improved pattern and design.

CONCLUSION.

In conclusion I ask for your co-operation in all that may effect the interests and welfare of our city. I recognize fully the fact that with you rests the responsibility of all legislation which touches the prosperity of our city and the correction of abuses.

I desire to disclaim any pretension as to the performance of your duties, nor do I arrogate to myself any superior knowledge of the city's needs. The suggestions have been made in a friendly spirit, and if you deem them worthy of your consideration and adoption I assure you of my hearty assistance and co-operation. In matters of our own we have the right to be generous, but for the city we have only the right to be just, therefore let us who have been entrusted with the government of our city act in unison together so that, as we are alike responsible for a just and economical government, we may merit the approval of our citizens.

Respectfully submitted,

I. W. TAUSSIG, Mayor.

CITY HALL, JERSEY CITY, May 6, 1882. }

To the Honorable the Board of Aldermen:

Gentlemen—I herewith return to you, without my approval, your resolution granting permission to C. E. Cassidy to lay two tracks in Eleventh street, passed April 27th, and presented to me for approval April 29th, for the following reason: That whenever the Board of Aldermen desire to exercise the powers set forth in Section 24 of the Act of 1871, of the City Charter, it must act by ordinance, and not by resolution.

The granting of this permission by resolution is improper, and cannot be legally done.

Respectfully submitted,

Gentlemen—I herewith return, without my approval, the resolution adopted by you on the 9th inst., that a special committee of three be appointed to take charge of the public parks until the next meeting of the Board, the 21st inst.

It has always been the practice of the Board of Aldermen to elect a presiding officer before any other business is transacted, and while the question has never been definitely settled as to the right of the majority of the members of your Board to incur obligations in the absence of a permanent organization, yet I believe on reconsideration, you will agree with me that the present is not an emergency that would sanction such an innovation upon old usage. Very respectfully,
I. W. TAUSSIG, Mayor.

OFFICERS' COMMUNICATIONS.

An opinion from the Corporation Counsel in answer to resolution of the 6th inst., setting forth that under chapter 74 of the laws of 1882, entitled "An act to provide for the licensing and regulating of milk dealers and their agents in cities, incorporated boroughs, or police, sanitary and improvement commissions, and incorporated camp meeting associations or seaside resorts," approved March 10, 1882. The Board of Aldermen of Jersey City are authorized to appoint a milk inspector for Jersey City to prescribe the duties and to fix the salary, and further to provide for the licensing and regulating of the parties engaged in the milk business as stated in that act. The aggregate of all the salaries and excoenses of these inspectors cannot, however, exceed two-thirds of the sum collected by the city from milk licenses, unless it is taken out of the appropriation made for salaries by the Board of Finance and Taxation. Any ordinance must, therefore, limit the salary and expenses as prescribed in Section 4 of the act, unless you have the money in addition in your appropriation for salaries. The Board has no power to run into debt, or to incur any obligation beyond these for this purpose, was presented, received and ordered filed.

The report of the City Comptroller of the receipts of the City Treasury from June 7 to 13, 1882, as follows, was presented, received and ordered filed:

MISCELLANEOUS BUSINESS.

Resolutions were presented, received and disposed of as follows:

By Alderman Gannon, and adopted:

Resolved, That the Board of Finance and Taxation be requested to transfer to the credit of the appropriation "for Improvements and Repairs, to Public Grounds and Buildings," the sum of \$100, the balance remaining to the credit of the appropriation "for designating public streets and avenues with signs."

By Alderman Kelly, and adopted:

Whereas, A large number of our fellow citizens have recently deemed it necessary to cease their labors connected with the handling of freight and merchandise, because of the very low compensation for their labors; and

Whereas While some condemn their action, through selfish motives, the majority of their fellow citizens cannot but commend their manly independence, while, obeying the law and refraining from committing any overt act, they refuse the further performance of work at the prices fixed by the moneyed corporations which control the railroads running through our city; and

Whereas, The sum of seventeen cents per hour when actually engaged averages a little more than a dollar a day, which at present price of food and provisions is totally inadequate for the support of a family; therefore

Resolved, That this Board of Aldermen, as representatives of the people, do most heartily sympathize with those who at present are engaged in what is to them a fight for existence, a manly stand against moneyed interests, seeking to make the poor poorer, the rich richer.

Resolved, That while the action of these men in refusing longer to bear the burden may not please those who control these moneyed interests, the mere fact of paying such compensation for labor should cause the blush of shame to mantle their cheeks and long ago have aroused sufficient of manhood in their nature to compel a radical change in the treatment of their employees.

Resolved, That his Honor the Acting Mayor be requested to urge upon the railroad corporations of Jersey City the necessity of a fair, honorable, and speedy settlement of the present existing troubles.

By Alderman Hauser:

Resolved, That warrants be drawn on the City Treasurer in favor of the following named for payment of salaries for June, 1882, when due, viz:

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the fol-lowing communication from the acting Mayor, filed in the City Clerk's office on the 11th inst., and the same was read, received, and ordered to be entered in the minutes:

EXECUTIVE DEPARTMENT. MAYOR'S OFFICE. }

CITY HALL, JERSEY CITY, July 10, 1882. }

Honorable Board of Aldermen of Jersey City: Gentlemen—A resolution adopted by your Honorable Body June 27, 1882, requesting the Board of Fire Commissioners to transfer to the Board of Aldermen the custody of old Hook & Ladder House No. 2, in Erie street, between Fifth and Sixth streets, and providing for the transfer by your Board of said building or its use to the Sisters of Charity of Mount St. Vin-cent for the purpose of establishing a hospital for the care of persons afflicted with incurable diseases, the said building to be used for such purpose during the pleasure of the Board of Al-dermen, has been presented to me for my ap-proval.

I am constrained to return said resolution with objections thereto, which I trust may be deemed sufficient to warrant your Honorable Body in sustaining my action. The city charter and its supplements provides but one way to dispose of buildings when no longer needed for city pur-poses, that is, by advertisement and sale to the highest bidder. Public hospitals when needed must be provided by appropriation made by the Board of Finance and Taxation on the requi-sition of the Board of Police Commissioners.

I hold that no portion of the public monies or property should ever upon any pretext be ap-proriated or expended except under the con-trol and supervision of the public authorities; and therefore it is not legitimate or proper to donate or transfer any public funds or property to any enterprise, however worthy in itself, or benevolent in its purpose, which is controlled by private parties. I cannot therefore sanction the transfer to any organization, sect, creed or color

of any city property for any purpose: the principle of taxation whereby municipalities exist points the way to the furnishing of whatever is necessary for the public good.

Private charity in cities helps to bear the burden of the care of the sick and distressed, but the exercise of that virtue by you, as custodians of the public property, is not, in my opinion, within your province.

In conclusion, permit me to add that, in my dual capacity as presiding officer of your Board and acting Mayor, I regret the circumstance which has rendered necessary the making of any objection to your action.

Very respectfully, WILLIAM H. FURMAN.

A communication from the Board of Finance and Taxation, appointing Wednesday, the 12th inst., at 8 o'clock p. m., as a time to confer in regard to appropriations for fiscal year beginning December 1, 1882, was presented, received and ordered filed.

A copy of a resolution adopted by the Board of Finance and Taxation, June 28, 1882, and approved by the Mayor, June 30, 1882, directing the transfer of \$100 from account for designating streets with signs to the account for improvement of public grounds and buildings, for present fiscal year, was presented, received and ordered filed.

A communication from the Board of Fire Commissioners, requesting the appointment of a committee to confer with a committee from said Board, relative to the law providing for the erection of fire escapes, etc., was presented, received and laid upon the table. On motion of Alderman Gannon, subsequently on motion of the same Alderman the communication was taken from the table and referred to a special committee, consisting of Aldermen Gannon, Old and Reynolds.

The report of the City Comptroller of the receipts or the City Treasury from July 5 to 11, 1882 inclusive, as follows, was presented, received and ordered filed:

General tax.....	\$8,634 64
Assessment account.....	1323 62
Water.....	14,307 36
Sinking Fund, 1873.....	16,097 87

REPORTS OF STANDING COMMITTEES.

The Committee on Baths and Armories, to whom was referred July 11, 1882, the preamble

and resolution presented at that date instructing the committee to take such action as they may deem necessary to take possession of Mason street and to locate on the border of said street a public bath when provided for by the Board of Finance and Taxation, presented a report thereon setting forth that in the opinion of the committee Mason street is in the same category as Sussex, Grand, York and other streets, except that it ends or butts upon what is known as the Morris Canal basin, controlled by a State corporation, with the sanction and authority of the State, and that this action on the part of the State precludes the possibility of possession on the part of the city and must be dispensed of by action of ejectment similar to the claim of the city as to York, Grand and other streets; and further, that in their opinion the establishment of a public bath on the line of Mason street, if possible, would not be of any benefit as a sanitary measure; the waters of the Hudson River at this particular point are not of sufficient purity to afford the cleanliness desired in a bath. The building of a bath needs an appropriation, which cannot be made before July, 1883, and could not be expended until after December, 1883, the appropriations for the next fiscal year having been already made and determined. Suits are now pending in the United States Courts, which will, if ever decided, determine for all time the question of control and ownership of the water front. No action on the part of the Board can hasten the business of said Court, but the Board must simply wait the issue. Forcible possession is of temporary benefit and if enforced must be paid for out of moneys specially appropriated, a fact which the policy of the State does not contemplate or warrant. The report was received and ordered filed.

The Committee on Streets reported the following resolutions on petitions heretofore referred:

Resolved, That permission is hereby granted to the following named to erect and maintain over sidewalks in the manner prescribed by law, the following, to remain during the pleasure of the Board of Aldermen:

H. Schotte, a sign in front of 235 Sherman avenue; C. Seauhaus, awning in front of 395 Palisade avenue; G. E. Winants, post and sign in front of 136 First street, for use of John G. Loehr; John Dickson, sign in front of 61 Harrison avenue; Joseph Heeney, sign in front of 351 First street; G. P. Howell, agent for C. M. Siel, sign in front of 610 Newark avenue. The report was received.

The resolution was adopted by the following vote, the yeas and nays having been ordered and taken on the call of the President pro tempore:

Yeas—All the members present, eleven in number.

The Committee on Streets reported the following resolutions on resolutions presented at this meeting from the Board of Public Works:

The reports were received, and the resolutions disposed of as follows:

Resolved, That the following resolution, adopted by the Board of Public Works August 28, 1882, is hereby approved by the Board of Aldermen:

Resolved, That by and with the concurrence of the Board of Finance and Taxation and approval of the Mayor and Aldermen, the report of the Committee on Streets and Sewers upon the application in writing of John Harken and others, presented to this Board on the 24th day of July, 1882, for the improvement of Van Vorst street, from Grand street to the southerly side of Morris street, be and the same is hereby accepted by this Board, which hereby declares its determination to make said improvement, unless at or before the time hereafter to be appointed for hearing parties in relation thereto a remonstrance shall be presented to this Board, signed by the owners of property liable to more than one-half the assessment thereof; and that the Commissioners of Assessment, with the aid and assistance of the Bureau of Survey, be and are hereby directed to make and report to this Board an estimate of

the quantity and kind of excavation and filling and amount of work to be done, and of the materials to be furnished for the making and completion of the said improvement, and that upon the filing of such report, the Clerk of this Board shall advertise for proposals for doing such work and furnishing such materials in manner and for the length of time required by law. The resolution was adopted.

REPORT OF SELECT COMMITTEE.

The following report was presented:

To the Hon. the Board of Aldermen of Jersey City:

The undersigned, members of, and instructed by, the special joint committee of city officials and citizens, which was appointed, in pursuance of a resolution adopted by your honorable body, April 18, 1882, for the purpose of conferring with the official representatives of the Pennsylvania Railroad Company and of the Delaware, Lackawanna and Western Railroad Company, in reference to property owned and occupied by the said corporations within the corporation limits of Jersey City, which property is by law exempt from municipal taxation, with a view to obtaining from said corporations the voluntary payment, to the treasury of Jersey City, of certain moneys, in lieu of taxes on such exempt property, beg leave to submit to your honorable body the following report:

The joint committee, immediately after their appointment, entered on the task assigned them, and have endeavored to prosecute it as diligently as was possible under the circumstances; the action of the committee has been at all times harmonious, and the conclusions arrived at have been reached with entire unanimity; the committee have in all their action had the advice and aid of the Corporation Counsel, and believe they have carefully avoided compromising any of the city's just claims or rights.

Several conferences have been had by the committee with the official representatives of the Pa. R. R. Company, and one with those of the Del., Lack. and West. R. R. Company, at which the subject committed to us was fully and freely discussed.

We are now able to report to your Honorable Body, as the result of the committee's conferences with the Board of Directors of the Pennsylvania Railroad Company, that the said board has placed in the hands of the committee for transmission to the proper city authorities, the sum of \$30,000, as a voluntary contribution "in aid of the municipal government of Jersey City for the current year, 1882." It is understood by your committee that it is the intention of the Pennsylvania Railroad Company to make a similar contribution annually to the Treasury of Jersey City. We recommend the acceptance by the city of the sum tendered. Accompanying the voucher for this sum of \$30,000, the committee received an official and certified transcript of the action of the Board of Directors of the Pennsylvania Railroad Company, which is herewith transmitted. The committee also received, with the aforesaid voucher, a communication addressed to His Honor the Mayor, by Hon. Wm. J. Sewell, on behalf of the Pennsylvania Railroad Company, in further explanation of the terms and understanding on which the aforesaid contribution is tendered, and this communication is herewith transmitted to your honorable body. The basis on which the amount of this contribution to the City Treasury was determined was, as nearly as it could be fixed, one per cent. on all the railway property within the corporate limits of Jersey

City, which would, by law, be liable to municipal taxation under the railroad tax act of 1873. As this is the percentage fixed by the law or the State for such taxation of such property, and is also the rate on which the city is receiving taxes from the New York Lake Erie & Western Railroad Company on property of a like character, your committee felt that they could not, in preferring their request to the railway corporations, justly insist on a higher rate, so long as the act above referred to remains in force. This sum of \$30,000, voluntarily contributed to the city treasury by the Pennsylvania Railroad Company, is wholly in excess of any sum which the city could demand or secure, as taxes, by any legal process, unless the legal decision should be that an assessment on the grain elevator is valid; this legal question will be submitted to the Supreme Court for adjudication at an early day. Your committee believe that the generosity of the Pennsylvania Railroad Company, as evinced in their action, and their evident desire to deal justly with Jersey City, will be duly appreciated by the city authorities and the citizens. Your committee cannot refrain from expressing their opinion, that the Pennsylvania Railroad Company, through its representatives, has in the entire progress of these negotiations manifested the most cordial disposition to deal fairly and justly with Jersey City and its claims as presented, and we recommend that your honorable body take action, suitably recognizing the just and liberal conduct of the Pa. R. R. Company. By further discreet action, controlled by a disposition to deal justly, your Committee believe that any other questions yet remaining unsettled between this city and the Pa. R. R. Company, can be amicably adjusted to the mutual advantage of both parties.

Your Committee have as yet been unable to arrive at any satisfactory adjustment with the Del., Lack. and Western Railroad Company, but hope and expect that a result, equally advantageous and just, and similar to that reached in the case of the exempt property of the Pa. R. R. Company will be arrived at with the Del., Lack. and Western R. R. Company; and to that end your Committee will use due diligence and devote their efforts, in their action thus far reported is approved. All of which is respectfully submitted.

Jersey City, September 26.

Z. K. PANGBORN,
LEON ABBETT,
HENRY PUSTER,
Sub-Committee.

I. W. TAUSSIG, Chairman.

The following are copies of papers accompanying said report:

I hereby certify that the following is a true and correct copy of the action of the Board of Directors of the Pennsylvania Railroad Company, had at a meeting held at the office of the company in the city of Philadelphia on the thirteenth day of September, 1882, namely:

Whereas, The Pennsylvania Railroad Company, under the law of the State of New Jersey, are required to pay their taxes to the State and not to the municipalities; and

Whereas, the municipality of Jersey City has, through its representatives, stated that they feel that under the provisions of this law, this company do not contribute towards the maintenance of the city government in which they are so largely interested by ownership of property and otherwise, in proportion to the extent of said interests; and

Whereas, This company can recognize no obligation on their part to pay such municipal taxes; yet, in view of all the circumstances and the amount of property owned and controlled by this company in Jersey City, and under the protection of its city government, it is

Resolved, That the Comptroller cause to be made a voucher for the sum of \$30,000 in favor of the Mayor and Aldermen of Jersey City, as a voluntary contribution from this company in aid of the municipal government of Jersey City for the current year 1882, and that this voucher be

forwarded to the Mayor of said city, together with a certified copy of this preamble and resolution.

PENNSYLVANIA RAILROAD COMPANY,

JERSEY CITY, N. J. Sept. 19, 1882.

Hon. Isaac W. Taussig, Mayor, Jersey City, N. J.:

Dear Sir—I beg leave to transmit voucher for \$30,000 from the Pennsylvania Railroad Company, with a copy of a set of resolutions adopted by that company, in response to the question of local taxes at Jersey City, presented by a committee of the Board of Aldermen and citizens of Jersey City.

I learned to-day that there is a question between the city and this company in relation to the assessment of the elevator on the Harismus Cove property. This question had not been brought to the attention of the Board of Directors of the Pennsylvania Railroad Company, they presuming that they were paying all the taxes that could possibly be assessed by law, and the voucher for \$30,000, which I herewith transmit, was intended by them as a contribution which would leave no question unsettled. I am informed by Mr. Vredenburgh, counsel of the company, that the assessment of the elevator is not legal, as it comes under the exemption in the company's charter, which provides that such parts of their property and the improvements to be made thereon as shall be used for railroad, canal, depot, transshipping or landing purposes is exempt from local taxation. The question of the elevator having arisen since the matter has been determined by the company of paying this \$30,000, and under the representation that it would cover any unsettled question, I beg to convey the same with the understanding that its acceptance by the city will be in lieu of any taxes that may be assessed upon the said elevator property in case the assessment is held to be valid under the law. Respectfully yours,

W. J. SEWELL,
for Pennsylvania Railroad Co.

The following preamble and resolution in relation thereto was offered by Alderman Van Reipen:

Whereas, The Pennsylvania Railroad Company (lessees of the United Railroad Company), have voluntarily deposited with His Honor the Mayor a check or order for the payment of the sum of \$30,000, as some liquidation for the protection afforded them by the city authorities of Jersey City.

Resolved, That we deem it expedient that such sum should be received by the city as a portion of the annual taxes equitably due this city, the said city not relinquishing, by such acceptance, any claim it has, or may have, for taxes due and unpaid by said company.

OFFICERS' COMMUNICATIONS.

An opinion from the Corporation Counsel, in answer to resolution of September 26, 1882, recommending the appropriation of \$18,000 of the money received from the Pennsylvania Railroad Company, for the purpose of repairing and cleaning the streets, was presented, setting forth that the expenditure to be made is one that falls within the province of the Board of Public Works, if any Board can lawfully make such an expenditure; the objection to such a use of money by the Board of Works is found in an act entitled "An act for the punishment of crimes," approved March 27, 1874, which makes it a crime for any city board to disburse, order or vote for the disbursement of public money in excess of the appropriations respectively to any such Board. Under the strict ruling of the Court in the case of Halstead vs. the State (12 Vroom 552), he considers it very dangerous for any Board to attempt to spend money in excess of its appropriation. He would therefore advise, that in the present state of the law no such use be made of the money given the city by the Pennsylvania Railroad Company.

Alderman Kelly, who offered the resolution of September 26, 1882, stated that in referring the resolution to the Corporation Counsel he desired an opinion as to the right of the Board to dispose

of the money received without regard to its expenditure by the Board of Public Works, and whether the money can be disposed of without the consent of the Board of Aldermen.

On motion of the same Alderman, the opinion was referred back to the Corporation Counsel.

OFFICERS' COMMUNICATIONS.

A copy of a resolution adopted by the Board of Finance and Taxation, on the 18th inst., and approved by the Mayor on the 19th inst., in-

structing the Comptroller to transfer the sum of \$150, from the account of Public Grounds and Buildings to the account of Printing, Stationery and Supplies, was presented, received and ordered filed.

The following opinion, from the Corporation Counsel, was presented, received and referred to the Special Committee appointed Sept. 26, 1882:

JERSEY CITY, October 3, 1882.

To the Hon. the Board of Aldermen of Jersey City:

Gentlemen—Your special committee to whom was referred, Sept. 26, 1882, a petition for a compromise of unpaid taxes and assessments, under Chapter 147 of the laws of 1882, have requested my opinion.

I am of opinion that the gravest doubts exist as to the power of your Board to take the action contemplated. It is true that Chapter 147 of Laws of 1882 is broad enough in its language to embrace Jersey City, but Chapter 128 of the Laws of 1882, entitled, "An act in relation to past due taxes and assessments," approved March 23, 1882, is not repealed by the act of 1882. Chapter 128 of the Laws of 1882, gives the power to make settlements in reference to past due taxes to the Board which, under our city charter is specially vested with power in matters connected with Finance and Taxation.

The charter of 1871 of Jersey City never contemplated that the Board of Aldermen should have anything to do with the question of taxation. It is a matter entirely foreign to the duties assigned them by the charter. If Chapter 147 of the Laws of 1882 is intended to apply to our Board of Aldermen, it imposes upon them duties which were never contemplated by the scheme of government developed by our city charter. That scheme of government conferred upon an entirely different Board the right to legislate with reference to matters of finance and taxation. General laws are often held not to apply to particular places where there is specific legal provision that already fully deals with the subject matter embraced in the general law, and although I am not free from doubt, yet I think that the better opinion is that chapter 147 of the laws of 1882, was not intended to apply to the cases provided for by chapter 128, of the laws of 1882, especially in view of the fact that the charter of the city never contemplated that your Board should deal with matters of finance and taxation.

It is, therefore, safer to leave this matter in the hands of the Board of Finance and Taxation; their power and authority to act are clear, your right to act is more than doubtful.

In view of the above consideration, I advise that your Board refuse to act upon the petition presented or refer the petition to the Board of Finance and Taxation for their consideration.

Respectfully submitted,

LEON ABBETT, C. C.

A copy of a resolution adopted by the Board of Public Works on the 9th inst. concerning the opening of Woodward street from the south-westerly line of Communipaw avenue to the northerly line of the property of the Newark and New York Railroad Company, as petitioned for by John R. Halladay and others, October 2, 1882, was presented, received and referred to Committee on Streets.

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, NOV. 28, 1882.

Honorable Board of Aldermen of Jersey City:

Gentlemen—I herewith return without my approval an ordinance passed by your Honorable Body on the 21st inst., entitled "An ordinance to authorize the New Jersey Telephone and Telegraph Company to erect poles and wires in portions of Railroad avenue and Newark avenue."

The ordinance in question exempts said company from the provisions and requirements of ordinances heretofore passed, requiring the payment of an annual license fee for the privilege of transacting their business in Jersey City.

These ordinances are in force, but this company have not complied with their provisions, and no good reason exists why they should be excused from the payment of a license fee.

This rule should apply to every company.

Privileges enjoyed by other Departments of the city government are in return for the use of property belonging to the city and under the control of said Departments.

It is presumed that your ordinances were passed to increase the revenue of the city, and no action to interfere with such purpose should be had by you.

I therefore return the ordinance without my approval. Respectfully submitted,

I. W. TAUSIG, Mayor.

It is not within the power of the Committee to cause a proper search of records, no appropriation having been made for such purpose, and that the Committee don't know of any authority whereby the Board of Aldermen could regulate or prohibit the construction of this road; that the city charter authorizes the Board to regulate the use of streets for certain purposes, but the general law of the State, passed in 1874 (see section 109, page 932, revision of 1874), authorizes any corporation organized under the act to construct a road anywhere, provided that in case said railroad shall cross any street or highway in any city it shall be either above or below the grade thereof, &c., and provided further that the Common Council of any city may grant permission to cross such streets or highways at grade if they shall deem it to be the best interests of said city. Whereas, Several articles have recently appeared in a New York journal, the tone of which is evidently intended to discourage investment in Jersey City bonds and to alarm the present holders; and

Whereas, Such articles are based upon presumed interviews with officials and others who are citizens of Jersey City, who, if correctly reported, are very desirous of depreciating the value of property in Jersey City, by encouraging the publication of sensational articles, garbled in language and information, yet suited to the purposes of enemies of our city's prosperity and welfare; and

Whereas, Such publications, from their hurtful tendencies, demand more than passing notice, and should be met by statements of truth and correct information as to our financial condition; and

Whereas, The credit of our city to be maintained, can best be protected by the report of those who are entrusted with the care and management of our finances; therefore

Resolved, That in the opinion of this Board, the Board of Finance and Taxation should cause to be prepared immediately, by the proper officers, a statement giving full information on all matters connected with the finances of Jersey City, our resources and liabilities, and to publish the same for the benefit of the general public.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor, filed in the City Clerk's office on the 23d inst., and the same was read, received and ordered to be entered in the minutes.

JERSEY CITY, February 20, 1883.

To the Honorable the Board of Aldermen of the city of Jersey City:

Gentlemen—I herewith return to you without my approval a resolution to accept \$7,325 from Mr. Henry Detwiler in full payment of certain taxes set forth in his petition to your Board. I am compelled to veto your action upon the following grounds:

First—That there are grave doubts as to whether your Board comes within the provisions of chapter 147 of the laws of 1882, as appears by the opinion of the Corporation Counsel to your Board, dated October 3, 1882. Chapter 128, of the laws of 1882, entitled "An act in relation to past due taxes and assessments," is not repealed by chapter 147 of the laws of 1882. Chapter 128, gives the power to make settlements in relation to past due taxes to the Board of Finance and Taxation of Jersey City. The charter of 1871 of Jersey City never contemplated that the Board of Aldermen should have anything to do with the question of taxation. It is a matter entirely foreign to its duties, as specified in the charter. I therefore agree with the Corporation Counsel that it is safer for the city to act under chapter 128, rather than chapter 147, of the laws of 1882.

Second—Even if your power was entirely clear I think this is a case where it should not be exercised.

Mr. Henry Detwiler had twice, before he applied to your Board, applied to the Board of Finance and Taxation to remit a part of his tax in the way of compromise, and twice his application had been refused; the first by an adverse report of the committee, June 9, 1879, and again by an adverse report made July 7, 1881, on the second petition. I am not aware that any new facts have been presented to your Board since this adverse action by the Board of Finance and Taxation.

Mr. Detwiler owns a large tract of land, as will appear by a map, which I have caused to be made, showing his property by blue lines thereon, which map I shall file with the Clerk of your Board for your inspection.

It would appear from this map as though certain streets were in existence, but I understand that Mr. Detwiler claims that these streets are only on paper, and that they have never been dedicated to the public, and that the fee of the land in them remains in him. If this be so, several acres of land embraced within these streets have entirely escaped taxation since 1870.

I am also informed that the plot of ground marked 1,270 on that map, embracing about two acres on the easterly side of the Morris Canal, which has a riparian front, and is therefore very valuable, has never been taxed at all, certainly not up to 1880, when the official map for the Greenville section was made for the Board of Public Works. The petition asks to have reduced the taxation of 1870 to 1878 inclusive.

If the assessments were excessive in any of these years, the party interested could have appealed to the Commissioners of Appeal in cases of taxation, as it appears by the petition was done for the year 1879.

If they had failed to relieve him, he could have appealed to the Supreme Court on certiorari to reduce the tax to the proper amount.

The statement that the reduction was made in 1879 is no evidence as to what the valuation was in 1870, or any of the intervening years between that date and 1878. But if there was error, he should have taken the proper legal steps to right it at the time. If he had done so, it would appear that the land embraced within the limits of these streets, which, in his petition, he claims were never dedicated or opened, would have been added. It probably would have appeared at the time that he owned these two valuable acres of water front, and that would have been added. Now, after these long years, he ignores the property which he claims to belong to him, and which escaped taxation from 1870, certainly up to 1880, and wishes a reduction on the lands that were assessed which belonged to him. The untaxed property thus omitted from his schedule of property would fully equal, in my judgment, even the amount attempted to be taken off by your Board from his assessment. I am therefore of opinion in this particular case, that there is not only no reason why the relief which the petitioners ask for should be granted, but that there is every reason why it should be refused, especially as the greater part of these unpaid taxes are pledged to the sinking funds of 1873 and 1876, for the redemption of the city bonded indebtedness.

Third—I am opposed to the principle of compromising past due taxes where the party has failed to pursue his legal remedies before the Commissioners of Appeals in cases of taxation, or by certiorari to the Supreme Court, because if the city shall encourage such action upon the part of delinquent taxpayers, it will soon be a very serious question with those who pay their taxes when due, as to whether they shall not cease doing so. They will ask themselves whether it is not better to wait for eight or ten years, and then obtain a compromise, by which they will save all the interest on the money, and also a part of the principal of the tax itself.

What encouragement is there for those who honestly and punctually pay their taxes as assessed, to continue to do so in the face of such action as is contemplated in this case? I am of opinion that the policy attempted to be inaugurated by favorable action upon this petition would, if pursued, tend to injure most materially

the credit of Jersey City, by inducing those who now honestly struggle to promptly pay their taxes, to cease doing so, trusting to chance and the future for favorable action by some Board of Aldermen to relieve them from a part of the public burdens imposed upon them.

Fourth—The effect of this resolution is practically to make a gift of several thousand dollars to Mr. Detwiler, at the expense of the other taxpayers of the city.

I earnestly hope that your Board will seriously consider the effect of your action upon the other taxpayers of the city, before taking further steps in the matter.

Respectfully submitted,

I. W. TAUSSIG, Mayor.

The following communication from the Mayor was presented, received and referred to the Committee on Baths and Amusements:

MAYOR'S OFFICE, JERSEY CITY, N. J.,
Feb. 23, 1883.

Honorable Board of Aldermen:

Gentlemen—On the 12th of December last I transmitted to you letters received by me from Hon. A. A. Hardenbergh, member of Congress from this District, and from the Ordnance Department at Washington, D. C., concerning cannon donated to Jersey City for monumental purposes and have this day (the 23rd inst.) received another letter from Mr. Hardenbergh, submitting a similar communication from the Ordnance Department at Washington, D. Mr. Hardenbergh urges prompt action, for the reason that the many demands will exhaust the number still on hand for distribution.

Very respectfully,

J. W. TAUSIG, Mayor.

The following communication from the Corporation Attorney, in answer to resolution of December 9, 1882, was presented, received and ordered filed:

JERSEY CITY, February 19, 1883.

To the Honorable the Board of Aldermen of Jersey City:

On the 9th of December your Honorable Body adopted resolutions directing that action be taken to compel the National Docks Railway Company to remove its trestlework from the lines of York street, Bright street, and all other dedicated or located streets. From a survey of the route of the company and an examination of the records, I find that a number of located streets are intersected by the works of the company, but in no case where the city is in possession. The located streets thus crossed have never been opened by the city, or otherwise in no case have they been dedicated to and accepted by the city: neither has the city in any way improved them. In but two cases (Whitton and Halladay streets) has there been a grade established, and in every case the railway company has purchased the fee of the land included within the boundaries of the streets, except on the south side of Colden street.

Respectfully submitted,

ALLAN L. McDERMOTT, Corporation Attorney.

made of the \$30,000 received from the Pennsylvania Railroad Company, and by what right and under what law the Board of Finance and Taxation assumed control of the money, has been received.

I have presented the matter to the Board in committee and am authorized to inform you that the Board claims the right to dispose of the same under its power to regulate and control the finances of Jersey City, there being no other Board in the city that has lawful authority to use the money.
